I can't mine this alone
Even though I am strong
Need something more than me
Someone to push me to diamonds
Let's see what we can do
Together, me and you
Can't be afraid to try
Kiss the creepers goodbye

No looking back
You and I, we're on the attack
Full speed ahead
Running to the sunset
Such a different feeling
Both of us believing
We can make it better

Together, we can show the overworld what we can do
You are next to me and I'm next to you
Push me on through until the diamonds mined
No one's gonna grief us
Into each other, we put our trust
Standing united, after the mine
All alone, we will never be
The two of us are holding the lever
We see today, a overworld we couldn't see
Before I say goodbye to you, one more last diamond

I know you have been griefed before
But you don't have to be anymore
No more creepers to stop us
When we run together, no one...

Can break up our house

No looking back
You and I, we're on the attack
Full speed ahead
Running to the sunset

Such a different feeling
Both of us believing
We can make it better

Together, we can show the overworld what we can do
You are next to me and I'm next to you
Push me on through until the diamonds mined
No one's gonna grief us
Into each other, we put our trust
Standing united, after the mine is done

[Instrumental]

We can show the world what we can do
You are next to me and I'm next to you
Push me on through until the diamonds mined
No one's gonna grief us
Into each other, we put our trust
Standing united, after the mine
It's a brand new day
We have turned the page
Never knew how much I needed
Somebody to help me this way
All alone, we will never be
The two of us are holding the lever
We see today, a world we couldn't see

Before I say goodbye to you, one more last diamond
